

Coverage Rate Roller

Product Specifications

Product Details

Product Name: Coverage Rate Roller

Order Quantity: Each/Box of 9

Includes: Roller with precision rings

Description: The Coverage Rate Roller helps maintain a consistent mil thickness across the entire roof. ½" nap and specially designed rings on the ends of the roller allow the nap to meter the coating from the running puddle onto the roof.

Product Benefits

- Helps to achieve a desired mil thickness
- Maintain a consistent mil thickness across the entire roof
- Low covers approx. 1.5 gallons per square
- Mid covers approx. 2.5 gallons per square
- Hi covers 3 gallons per square
- Precision rings allow for more accurate coverage rates
