

Weighted Roller

Product Specifications

Product Details

Product Name: Weighted Roller

Order Quantity: Each

Includes: Handle, axle, bushings

Description: The Weighted Roller applies consistent pressure to roof membranes for even bonding. The segmented roller design prevents twisting of material and improves maneuverability. 100# and 150# rollers are 30" wide; Add-A-Weight is 36" wide.

Product Benefits

- Constant Pressure
- Use with any adhered membrane
- Faster than "brooming"
- Easy steering
- 150# is the Carlisle recommended standard, providing 5 lbs per linear inch
- The 100# provides 3.3 lbs per linear inch
- Four individual sections to allow for ease of turning

Product Sizes

150# Fleeceback Roller
(WR-150-FB)

100# Membrane Roller
(WR-150-MR)

Add-A-Weight Roller
(WR-AAW)
